

FAIRFAX COUNTY POLICE DEPARTMENT

ACTIVITY REPORT

SEPTEMBER 17, 2010

ACTIVITIES REPORTED THROUGH SEPTEMBER 15, 2010

PUBLIC INFORMATION OFFICE -- 703-246-2253

There are four sections in this report: Section I: WEEKLY ARRESTS FOR SELECTED CHARGES Section II: MAJOR INCIDENTS; Section III: PROPERTY CRIMES; and, Section IV: ANIMAL RELATED INCIDENTS. Sections are appropriately identified. Within the sections, incidents are organized by station, then by type of offense. They are listed alphabetically by street address.

Addresses shown indicate blocks and not specific locations. Thus an entry showing Chain Bridge Road 4100 would mean the 4100 *block* of Chain Bridge Road, not the address 4100 Chain Bridge Road.

An asterisk (*) before an item indicates that a news release was distributed on that offense.

Section I: WEEKLY ARRESTS FOR SELECTED CHARGES

Domestic violence-related charges: 41

Illegal drug-related charges: 56

DWI-related charges: 108

**These numbers are based on preliminary data which undergoes frequent modification and may not reconcile with year-end totals.*

Section II: MAJOR INCIDENTS**COUNTYWIDE**

***DEER MANAGEMENT:** A new Archery Program was implemented last year as part of the Fairfax County Deer Management Program. The Archery Program was developed with the recognition that archery is a safe, efficient, and sustainable deer management tool in urbanized regions such as Fairfax County. The Archery Program will be implemented from Saturday, October 16, 2010 until Saturday, February 12, 2011. Selected parks will not be closed to park patrons during this time and signs will be posted on trails informing visitors of this deer management activity. All hunting will be conducted from elevated tree stands and located at least 100 feet from park property lines and 50 feet from trails. The Archery Program is conducted at selected park sites by a qualified archery group selected via archery hunt lotto. Qualified archery groups are comprised of ethical, experienced bow hunters with superior marksmanship and skill. The careful screening of each archery group, as well as overall monitoring and oversight of the Archery Program, is the responsibility of the Fairfax County Wildlife Biologist (Fairfax County Police Department – Animal Services Division).

To learn more about deer management activity in Fairfax County, the public is invited to attend any of the five Archery Program Public Information Meetings which begin tonight at the West Springfield Government Center, 6140 Rolling Road, Springfield at 7 p.m. For more information contact Victoria Monroe, Fairfax County Wildlife Biologist at 703-246-6868 or email victoria.monroe@fairfaxcounty.gov. Visit the Fairfax County website for more information about our local wildlife species and wildlife management at www.fairfaxcounty.gov/living/animals/wildlife.

***DISTRACTED DRIVING CAMPAIGN:** If you're texting, eating, applying make up or getting dressed while you're behind the wheel, you may want to reconsider: Fairfax County Police will be watching. They're kicking off a new distracted driving campaign aimed at keeping motorists and county roadways safer. A recent study by the Virginia Tech Transportation Institute points out that nearly 80 percent of all crashes and 65 percent of all near-crashes involved driver inattention due to distraction. Captain Susan Culin, Commander of the FCPD Traffic Division says "Distracted driving is a serious problem," said Captain Culin, "We see it every day; every where; it's become an epidemic on our roadways."

The new campaign combines public education and awareness with strict, innovative, enforcement techniques. Officers will be posted at intersections and along roads where there is high volume and high number of crash incidents, such as the Route 28 corridor and the Tyson' Corner area. "Officers may be positioned in 'unorthodox' locations where they'll be able to best view careless behaviors that take a driver's focus off of the roadway," she said. In addition to the increased enforcement effort, a new survey with a focus on texting while driving is being launched. Officials want to measure and assess public attitudes and behaviors about distracted driving in Fairfax County so they can best determine and target traffic safety education efforts. The online survey is now posted for public participation at www.fairfaxcounty.gov/police. School resource officers are also encouraging teen drivers to participate. In partnership with Fairfax County Public Schools, police will distribute a new texting-awareness poster throughout schools across the county as well. The campaign is slated to run through June 2011; with updates on education and enforcement efforts to be shared with the public. For more information on the new campaign or distracted driving issues, please contact the Traffic Safety Division at 703-280-0500.
